LinkedIn/Deepanshu Yadav

Professional Summary

Full Stack Developer with experience building scalable web applications using React, Node.js, Express.js, MongoDB, PostgreSQL, and TypeScript. Built AI-powered automation systems, REST APIs, authentication workflows, and database-driven applications through freelance work and technical assessments. Passionate about writing clean, maintainable software and solving real-world engineering problems.

Skills

- **Languages:** JavaScript, TypeScript, Python, HTML5, CSS3
- **Frontend:** React.js, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- **Databases:** MongoDB, PostgreSQL, MySQL, Prisma ORM
- **Tools:** Git, GitHub, Docker, Postman, VS Code, Figma, Antigravity, Stitch, Claude

---

Projects

Amrutam_Pharmaceuticals

Node.js • Express • PostgreSQL • Prisma • TypeScript

• Built modular REST APIs supporting authentication, appointments, consultation workflows, and payments.
• Designed scalable backend architecture using PostgreSQL and Prisma ORM.

Live Demo: https://amrutam-pharmaceuticals-black.vercel.app/

Student Management System

React • Node • Express • MongoDB

• Built a full-stack academic management platform with authentication, attendance, examinations, and marks management.
• Developed responsive UI and secure backend APIs.
• GitHub | Live Demo

GitHub: https://github.com/DeepanshuAI/Student-Management-System
Live Demo: https://student-management-system-opal-sigma.vercel.app/

AI Export Automation

Python • Flask • Gemini AI

• Developed AI-powered lead generation and automated email outreach platform.
• Integrated Gemini AI and Gmail SMTP for lead classification and campaign automation.

GitHub: https://github.com/DeepanshuAI/AI-Export-Automation-System

---

Binance Trading Bot

Python • Binance REST API

- Integrated Binance Futures Testnet APIs for automated trade execution.
- Designed modular trading logic to simplify testing and future strategy development.

GitHub: https://github.com/DeepanshuAI/Binance-TradinBot

Experience

Full Stack Developer | Self Employed (Jan 2026 -Present)

- Working as a freelancer and building responsive websites for local stores and businesses.
- Built and delivered websites tailored to client requirements, focusing on clean UI, responsive layouts, navigation, and user experience.
- Managed website development from initial requirements and interface implementation through testing, bug fixing, and deployment.
- Updated website features and resolved technical issues based on client feedback.

Education:

B.Sc B.Ed Computer Science | Pondicherry University | 2022-2026
